

### **Abstract:**

These papers focus on the financial resources of nonprofit sector and how the economic crisis had to changed them a what was the effect. By analyzing data which were collected from questionnaires and annual reports of nonprofit organizations, I'm using basic statistics came to the answer to the question whether an increase or decrease of financial resources, especially, donations, money from EU funds and state subsidies. In papers, there is also explanation of paradoxical behaviour of Czech donaters, stability of government grants as a financial resource and the different behaviour of Prague due to whole state.

At the end of papers is a comparison between European nonprofit sector and American nonprofit sector, because the crisis began there and spread throughout the world, and of course, there is also comparing nonprofit sectors of Czech Republic and United States.
