

My work deals with the Czechoslovak State Secondary School in Great Britain which was operated by the Czechoslovak government-in-exile from 1940 to 1945 as a part of the Czechoslovak school system. Information on origin and organization of this school and also information on its cultural and promotional activities are specified here. A part of this work is dedicated to professors and students of this school. The students had their own organization called „Club of Czechoslovak High School Students“ which organized cultural and sport activities of the school as well as edited a school magazine and took part at students management of the school. Some memories of former students themselves are added to demonstrate a global atmosphere of the school and to show student's perspective on classwork and school organization.
