

Bachelor thesis on „The TV news in Czech Sign Language“ in Czech Deaf Culture is about the media coverage in the Czech Republic, which is indicated by deaf moderators in Czech Sign Language. The thesis shows the importance of TV news for the deaf culture in the Czech Republic. The bachelor thesis is also about media communication in general as well as about existing media laws that are related to the news for the deaf.

A large part of the thesis is a historical development of TV news with regard of individual changes. Another important part is a questionnaire which covers representative samples of the society. The ending of thesis is a comparison of TV news in Czech Sign Language with foreign broadcast, especially of Finland and England.
