

Abstract

Title: Description of Geocaching with the example of the area Divoka Sarka

Aim: The aim of this thesis is to perform a literature search about the game Geocaching, give basic information for beginners and advanced player too from available resources in the Czech and foreign literature. Then bring Geocaching to the example of the Divoká Šárka.

Results: The result of processing information retrieval work, a cluster of large amounts of data on the Geocaching game. Czech and foreign literature provided me the information necessary to explain Geocaching words, tracing the historical sources and learning the rules of the game. Furthermore, to obtain relevant records of Nature Reserve Divoká Šárka and caches in this area. The most important result was finding caches in a selected area of Divoká Šárka and accurate description of the procedure.

Keywords: Geocaching, game, GPS, cache, types of caches, Divoka Sarka
