

## **Abstract**

### **The self-concept of adolescent individuals with specific learning disabilities**

---

The aim of the bachelor's thesis is to be involved in self-concept of adolescent individuals with specific learning disabilities. According to the literature studied, the main terms *specific learning disabilities* and *self-concept* are defined. The thesis has the form of a survey study focused on the individuals with specific learning disabilities. It examines the symptoms of specific learning disabilities and the impact on self-concept of adolescent individuals. Furthermore, a survey is conducted on a sample of three boys and two girls. All the respondents are adolescent and diagnosed with the specific learning disabilities. Finally, the necessity of further research in this area is suggested.

### **Key words**

Specific learning disabilities, self-concept, adolescent
