

# REPORT OF BACHELOR THESIS

**Opponent's name:** Romana Kozderková

**Leadership's name:** Mgr. Miroslava Jalovcova

**Student's name:** Ilias Tsaparegas

**Title of diploma thesis:**  
Rehabilitation after anterior cruciate ligament reconstruction

**Goal of thesis:**  
The goal of this casuistic work is description of theory related to the topic the reconstruction anterior cruciatum ligament, therapeutic approaches, examination and day by day therapy.

**1. Volume:**

* pages of text	98
* literature	26
* tables, pictures	30, 12

**2. Seriousness of topics:**

	above average	average	under average
* theoretical knowledge		x	
* input data and their processing		x	
* used methods		x	

3. Criteria of thesis classification	evaluation			
	excellent	very good	satisfactory	unsatisfactory
degree of the aim of work fulfillment	x			
depth of analysis of thesis		x		
logical construction of work		x		
work with literature and citations		x		
adequacy of used methods		x		
design of work (text, graphs, tables)			x	
the design is not consistent, presence of bullets in theoretical part, text is not always in justified on right side				
stylistic level		x		

**4. Usefulness of the thesis outcomes:** average

**5. Comments and questions to answer:**

The theory is written with respect to basic topic. Logical construction is sufficiently related to a bachelor degree thesis. Student included description of special orthopedic test for knee stability which above expected knowledge for students of this level. methodology concept is written well. In examination part are few grammatical mistakes like "Trendelemburg"sign. Short and long term rehabilitation plans are constructed excellent specially long term shows students ability to understand follow up necessity functioning in day activities. Day by day therapy describes in details all provided exercises. The thesis contents all required parts of bachelor thesis. Question: Is important to regain new quality of balance after ACL reconstruction as prevention to postoperative failure?

<b>6. Recommendation for defense:</b>	YES				
<b>7. Designed classificatory degree</b>	Very good
