

Anotation

The bachelor's thesis focuses on the useage of interrogative expressions in Czech sign language. It provides an overview of the interrogative expressions excerpted from Czech sign language dictionaries and of a video, which was made in the context of research into the use and misuse of expressions that were excerpted from dictionaries.

In addition, the thesis deals with the construction of the interrogative sentences in Czech language and other foreign sign languages. Part of the thesis is a DVD which captures examples of interrogative sentences in Czech sign language as performed by deaf respondents of a survey who use Czech sign language.
