

**ABSTRACT:**

This bachelor thesis elaborates on managerial functions and their delegation. It focuses on delegation of privileges, competencies and responsibilities from director of joint kindergarten to deputy who manages detached site. This is exclusively schools that were established by consolidating of several independent kindergartens. Theoretical part of the thesis is based on specialized literature. Research part contains analysis of questionnaire which was conducted on 10 consolidated kindergartens in Prague and focused on delegation of director's competencies. Directors and their deputies managing the detached sites participated in the questionnaire. Author of this thesis answers the question, which of the managerial competencies are appropriate for delegation in the detached site.
