

# REPORT OF DIPLOMA THESIS

Leadership's name:

Phdr. Tereza Nováková, Ph.D.

Student's name:

Bc. Christer Vik Smetana

Title of diploma thesis name:

Comparing Neurophysiological Methods to Functional Therapy in Treatment of Cerebral Palsy from Newborn to Adolescents

Goal of thesis:

The thesis is a literary review, reviewing books, journals and articles retrieved in the period from autumn 2010 to spring 2012.

1. Volume:

* pages of text	89
* literature	144
* tables, graphs, appendices	16 tables, 6 appendixes

2. Seriousness of topics:

	above average	average	under average
* theoretical knowledges	x		
* input data and their processing	x		
* used methods		x	

3. Criteria of thesis classification

	excellent	very good	satisfactory	unsatisfactory
degree of aim of work fulfilment	x			
independence of student during process of thesis	x			
logical construction of work	x			
work with literature and citations	x			
adequacy of used methods	x			
design of work (text, graphs, tables)	x			
stylistic level	x			

*responds to the requirements for the diploma thesis*

4. Usefulness of the thesis outcomes:

above average      average

5. Comments and questions to answer:

*The presented master thesis is exhaustively elaborated using the recent sources of many distinguished journals and internet media. It brings the recent summary of the problem of cerebral palsy from diagnostic and therapeutic point of view. The subject matter is very well critically evaluated. Could you compare the options of the evidence based evaluations in CP patients? What would be your proposal of research plan design in this issues?*

6. Recommendation for defence:

yes      no

7. Designed classificatory degree

excellent

Date: 4.5.2012
