Abstract

The thesis analyses the agricultural and social life of the collegiate chapter of Stará Boleslav in the fifties and sixties of the 17th century. The core of the thesis focused on researching of the agricultural and social situation of the chapter of Stará Boleslav in the fifties and sixties of the 17th century follows after a brief outline of the chapter's history and its position within the context of the medieval and early modern development. The topic is mainly studied on the basis of unpublished sources (a list of the most important ones is presented below), also considering secondary literature, and it is placed into a broader context of the situation in Bohemia after the Thirty Years War.
