Radek Sachl defended today this thesis

“Localisation of Fluorescent Probes and the Estimation of Lipid Nanodomain Sizes by Modern Fluorescence Techniques”

Faculty opponent was Professor Mats Almgren, Department of Physical and Analytical Chemistry, Uppsala University, Sweden.

Deputy opponent was Associate Professor Tomas Obsil, Department of Physical and Macromolecular Chemistry, Charles University, Prague, Czech Republic.

The members of the examining board for Radek Sachl's thesis defense hereby decide to assign the thesis grade PASS *).

Umeå as above

Jerker Widengren
Professor
Experimental Molecular
Biophysics
KTH
Stockholm

Eva Selstam
Professor
Department of Plant Physiology
Umeå University

Gerhard Gröbner
Professor
Department of Chemistry
Umeå University

Sven Carlsson
Professor
Department of Medical
Biochemistry and Biophysics,
Umeå University

Madeleine Ramstedt
Associate Professor
Department of Chemistry
Umeå University

*) The grades awarded are either Pass or Not passed.
