

Abstrakt

This text is especially intended as an educational material for teachers at kindergartens, however it can be interesting also for general public. The thesis includes multicultural education in the Czech kindergartens. In this work I try to describe the problems that concern the inclusion of Vietnamese children in Czech kindergartens. The theoretical part deals with terms related to multicultural education. Further I details describe the Vietnamese customs, traditions and other differences between the Vietnamese and Czech culture.

Keywords: Culture, education, pre-school education, multicultural education
