**Judaism in the Ghetto Teresin**

The Dissertation thesis *Judaism in the Terezin Ghetto* strives to present a new, Judaist view over the part of history of the Terezin ghetto. The aim of the thesis is to support and clarify the question of the importance and preservation of Jewish tradition as a social institution in the context of extreme life conditions. The evidence is supported by little used sources such as testimonies and memories of eyewitnesses of the prisoners of Terezin ghetto.
