The principal points of the teaching of the Second Vatican council about word of God are followed: “The Scripture” is revelation of the God. The God reveals us in the Scripture his plan of the salvation which culminate by the coming the Son of God into the world. The Holy Scripture is inspired word of living God therefore the church has it in honest and love. The constitution “Dei verbum” speaks the table of the word of God in the same level as the eucharist. The fact that Bible is inspired word of God has consequences. There is main intercession of the God though it we meet him the most authentic.

The Scripture teach us how to pray. It is the school of prayer. It shows us haw could be our prayer and it leads us itself to the dialog with the God. Especially fruitful for our spiritual life is meditative way of reading the Scripture called “Lectio divina”. God is speaking to us in his word and he expects our answer.
