

Abstract of thesis: Plan Colombia – Cooperation of US and Colombian government

Author: Miroslav Tomeš

This thesis should introduces to the reader the antidrug project known as Plan Colombia. This plan is based on cooperation of US and Colombian government. The work should as well describe history and details of colombian armed conflict between the official colombian army, guerillas and paramilitaries. Work introduces drug cartels, which had operated on colombian territory for forty years and main armed groups influencing political and economical progress in Colombia. My work contains human rights issues in colombian civil war.
