The proposed diploma thesis "The Third Republic in Podebrady" focuses on town Podebrady during years 1945-1948. The work provides the reader with a comprehensive overview of events at the end of the WWII. It also describes the period of liberation and the arrival of Red Army and Allied troops. Furthermore, the thesis investigates various events, that took place in Podebrady in the time of so-called Third Republic. The establishment of Municipal and District National Comitte is explored as well as their activities. Besides that, the work deals with actions of the National Security Corps (SNB) and with the development in schools and in industry in Podebrady, especially with the process of nationalization in glass and spa industries.
