

## Summary

This work is based on individual, non-standardized interviews of gays and lesbians which were obtained for this work by the method of Snowball Sampling and searching on the web. Their family histories (stories) and biographies were noted on a dictaphone and written down to the letter. The main objectives of this work are two and have a theme about family. Objectives are: "Mapping of relationships of lesbians and gays in family neighbourhood (primary family)" and "Relationship of lesbians and gay to their secondary family". In this way, the author gets individual views of gays and lesbians on these problems. To this work is added one interview of a bisexual person who lived a long time as a lesbian's life style and currently she is a few years married.
