

Abstrakt

This work is concerned with problems of the practice of the authority in the socio-legal protection of children in Ústecký region. The purpose of the work is the analysis of progress in work of the authority in the socio-legal protection of children in the context of the international standards Quality for Children. The theoretical part of the paper describes basic concepts relating to social- legal protection of children in the connection to the standards Quality for Children. The practical part analyzes practical progress in work of the social-legal authority of children in Ústecký region in the context of these standards. The analysis was performed with 20 interviews with officers from socio-legal authority in Ústecký region. The result of my investigation is to analyze the degree of the fulfillment of these standards.
