Resumé

Thesis „Profession of a Policeman, Professiography Analysis, Prestige“ is aimed at improving the prestige of the police profession in society among other occupations, where according to the latest survey conducted by CVVM is 11th place between the observed professions.

To suggest possible ways to increase the prestige of the police, the analysis of the occupation, professiography analysis covering the job description, time frame, card minimum entitlements and actual professiography questionnaire. For the creation of an appropriate strategy, was still prepared SWOT analysis to identify the strengths and weaknesses of the police, possible opportunities and risks, which must be avoided.

Based on the analysis of the data revealed that the most important conditions necessary for gaining prestige in the society especially professional knowledge workers in their field, the importance of their profession to society and responsibility to the Company. To achieve this it is necessary to focus on the careful selection of future employees, lifelong training of police officers, conscientious police tasks, principles of Police Code of Ethics and follow the principles of community policing.
