

ABSTRACT

SYSTEM OF EDUCATION OF PHARMACISTS IN GREECE

Author: Eirini-Georgia Mougiou

Tutor: RNDr. Jana Kotlářová, Ph.D.

Department of social and Clinical Pharmacy, Faculty of Pharmacy in Hradec Kralove, Charles University in Prague, Czech Republic

Aim of study: The aim of diploma thesis is to get current knowledge about system of education of pharmacists in Greece, their vocational employment and to shortly compare situation in this field in Greece with Czech Republic. A survey whose goal is the gathering of information from foreign students about their experience in universities abroad, especially at Charles University.

Methods: Data collection through appreciation of information and studying of literature. Questionnaire answered by 61 following students of pharmacy on March 2013.

Results: Studies in high school, entrance examination of students in University , undergraduate and postgraduate studies in discipline of pharmacy are the main characteristics of both educational systems. Comparison and report of differences between the studies in Greece and studies abroad. Importance of life-long learning for professional pharmacists. Students answered questionnaire are 47,54 % males and 52,46 % females, most of them 68,84 % are from Greece and 14,74% from Cyprus. 67,21 % are not satisfied with Charles University and 32,79 % are satisfied. Most of them 52,46 % study in Hradec Králové and 34,42 % in Brno.

Conclusion: Education and vocational employment of pharmacist in Greece cross many disciplines. There are not main differences between educational system in Greece and Czech Republic. The most important is getting to know each other and communicate in order to realize expectations of all and then convert them to realistic ideas.
