

ABSTRACT

Title: Playing skills in floorball (evaluation criteria).

Target: To create a list of playing skills which an ideal player should demonstrate. Find and verify the evaluation criteria of these skills and inspire trainers to develop these skills in the best way.

Methods: Informal interviews, individually structured interviews, analysis and verification of data, pilot testing.

Results: Defined playing skills in floorball, developed scale of values of floorball playing skills, creation of exercises serving to develop playing skills in floorball.

Key words: Playing skills, evaluation criteria and player development.
