

REPORT OF MASTER THESIS - opponent

Opponent's name: Mgr. Lenka Satrapová

Leadership's name: Phdr. Tereza Nováková, Ph.D.

Student's name: Bc. Farah Droubi

Title of diploma thesis:
Pes planus in children: its implications and the influencing factors on its development

Goal of thesis:
The aim of this literature review was to enhance knowledge on the persistence of the flat feet condition in the pediatric population by determining the development of flat feet in children with an outline of its affect on posture and gait and identifying contributing factors that affect the incidence and progression of the deformity.

1. Volume:

* pages of text	77
* literature	118
* tables, graphs, appendices	8 tables, 16 figures in 2 appendixes

2. Seriousness of topics:

	above average	average	under average
* theroretical knowladges	x		
* input data and their processing	x		
* used methods		x	

3. Criteria of thesis classification

	evaluation			
	excellent	very good	satisfactory	unsatisfactory
degree of aim of work fulfilment	x			
depth of analysis of thesis	x			
logical consttruction of work	x			
work with literature and citations		x		
	<i>non - standart citation norm</i>			
adequacy of used methods	x			
design of work (text, graphs, tablels)	x			
stylistic level	x			

4. Usefulness of the thesis outcomes:

above average	average	under average

5. Comments and questions to answer:

1) You are mentioning the importance of preschool age flatfeet prevention. How do you imagine this intervention?

6. Recomendation for defence: YES NO

7. Designed classificatory degree excellent

Date: 26.9.2013
