

## **Abstract**

The bachelor thesis describes selected information sources for a theatrical form of dance. The thesis is divided into two parts: theoretical and practical. Theoretical part explains the terms related to the information sources and theatrical form of dance and describes historical development of the information sources. The aim of the thesis is to describe and compare information sources for a theatrical form of dance. The thesis makes differences between the information sources for general public and those for professional dancers. Practical part of the thesis compares information sources based on their content. The comparison shows that the Czech information sources are comparable to the foreign sources.

## **Keywords**

Information source, Electronic Information resource, Theatrical form of dance, Dance magazines, Web portals about the news in dance
