

Abstract

This work named 'The use of bibliotherapy in people with drug addiction' deals with bibliotherapy in specific kind of people who are drug addicts. In the work is shown theoretical knowledge of the problems with drug addiction, the issues of bibliotherapy and the experience in usually used techniques of bibliotherapy with the drug-addicted people. The work also contains lists of appropriate literature with the topic of addiction from a different perspective. The main aim of this work is to suggest suitable techniques which can help to drug-addicted people using the bibliotherapy. These techniques are not tested in practice. This work also tries to present bibliotherapy as a way to help people with drug addiction.
