

Abstract:

The bachelor's work contains the facts gained during the studium of the school management. It deals with the problems of the abuse of the legal regulations from the part of the headmasters of the kindergartens.

The work is focused on the making a map and the description of the most frequent breaking the rules in the connection with the valid legal rules and the Criteria of the evaluation of the educational conditions, process and results published by the Czech School Inspection and authorized by the Ministry of Education. It offers a research of errors and suggests solution how to prevent from them.

The core of the practical part is the analysis of the inspectional reports and searching for the main fields, where the mistakes are made, then summing up and comparison.

The target of the work is to suggest how to prevent from the abuse in the management of the kindergartens.
