Title: Principles of safety measures of sports events organizers without the involvement of police

Objectives: The aim of this thesis is a description of security measures at sporting events organizers.

Methods: The thesis theoretical style is focused on searching for available sources of study and research, and writing their summary comparing safety measures of the organizers.

Results: This work describes the activities of the organizers of sports events and precautions that must be provided prior to each sports organizer game. The work includes development of both selected sports, a description of spectator violence and groups on spectator violence most often involved.

Keywords: safety, organizer, sports events, violence, viewer
