

Abstract

This diploma thesis deals with Information system of basic registries and its implementation. The information system consists of four main registries (Registry of Inhabitants, Registry of Persons, Registry of Territorial Identification, Addresses and Real Estates and Registry of Rights and Obligations) and system of ORG. The thesis defines crucial documents which deal with this project and the basic terms of Basic Registries Act No. 111/2009 Coll. and other related acts are explained. This thesis also compares the public administration before and after the activation of basic registries and the most important part is public survey which discovers knowledge about basic registries and responds to determined hypotheses.
