

ANNOTATION

The purpose of the Diploma thesis „The influence of state policy of employment to persons under the age of 26“ is to define a group of young unemployment individuals with elementary and high education with certificate of apprenticeship. The thesis describes tools of employment policy, which influences the target group of people.

The practical goal of the thesis is to conduct qualitative survey inside the user group of streetwork programme for children and young adults in the Cerny Most area. The users of the programme are target group in the thesis.

The main purpose of the survey is to find out, what are the experiences of the users with jobs searching and with specific active tools of employment policy. The results of survey are analyzed and conclusions with recommendations are made.
