

Abstract: This thesis discusses the limits of statute of contractual obligations solely from the perspective of conflict of law rules. It is based primarily on the analysis of national conflict of law rules contained in Act No. 97/1963 Coll., On International Private and Procedural Law and Act No. 91/2012 Coll., On Private International Law. There are also analyzed relevant standards of the European Parliament and Council Regulation (EC) No. 593/2008 on the law applicable to contractual obligations (Rome I) and conflict of law rules in the German Initial Act to the Civil Code, as well as in the Swiss Act on Private International Law.
