ABSTRACT:
The final thesis of the Bachelor’s degree course deals with the issue of nursery governance regulations and their importance and impact on the parents and the nursery. One of the objectives of the study is the utility of the governance regulations both for the nursery and for the legal guardian. The thesis also investigates in what situations and to what extent the legal guardian utilizes the regulations and in what situations the regulations are utilized by the nursery. The theoretical part deals with the legislative aspects of the governance regulations. The research part is based on findings made amongst a group of nursery headmistresses and children’s legal guardians and on the analysis of a selected group of the specific governance regulations. The conclusions open up a view on one of the most important documents available to the nursery headmasters and headmistresses.
