

Abstract

This bachelor thesis deals with using of job seeker in the field of volunteering. My study consists of three main parts. In the first part I am discussing unemployment, the special emphasis is placed on physical, social, economic changes. The main aim of this part is to show the wide complexity of the unemployment problem. In the second part I am discussing volunteering and its assets for society. In the last part I try to show how the job seekers evaluate the possibility of voluntarism activity in time of their unemployment and how unemployment influences their life.

Key word: volunteering, volunteer, unemployment, active employment policy
