Abstract

Teacher’s education in Bohemian (historic overview)

Keywords: Pedagogy, teacher’s education, school reforms, teacher

The aim of this thesis is to describe the development in teacher education since the late 18th century to the 40th years of the 20th century. In this context, I also try to show the position of the Czech teacher in society. I focus mainly on certain groundbreaking moments in teacher education, therefore I pay attention to the changes in education system as a whole, show the causes of these changes and present the personalities that have directly or indirectly affected these changes.
