In my diploma thesis I tried to gain an insight into Jesus's parables in the gospel of Luke. I was primarily looking into the meaning of gospel, parables and the kingdom of God. I watched Jesus's impact with the help of parables and Luke's contribution to the preservation and to personal literary treatment of Jesus' sayings and ideas.

My attention was focused on the interpretation of the seven parables that are told in chapters 15, 16 and 18, in terms of social issues.

In the end I chose, from my perspective, the most important messages that could appeal to a wide audience, and help them to distinguish the essential from the inessential in their lives. The strongest one is the message of joy associated with the righteousness of God.

The parable shows that we should not stop to make efforts to live socially only, we should hope and trust in the establishment of the Kingdom of God through Jesus Christ.
