Title of the thesis:

Arterial Hypertension and its relation to atherosclerosis

The topic of the thesis was chosen by student

Work with literature good.

Language skills good.

Student invention good.

Student worked independently with mentor help.

Problems and issues were solved independently with mentor help.

Work in the lab was not available, literature review.

Results interpretation not available, literature review.

Processing of thesis was major revision of mentor was necessary.

Graphical processing for the thesis excellent.

Mentor comments to thesis and student approach:

Theodosia Evlogimenou prepared her diploma thesis focused on hypertension and atherosclerosis. She described basic pathophysiological principles of diseases and mentioned also basic therapeutical approach. During the period of preparation the work required significant help from mentor. English level of the thesis is "only" good. After all Theodosia managed to prepare the thesis which might be recommended for the defense.

Evaluation of diploma thesis: good, to defense: recommended

In Hradec Kralove 29.5.2015
