**Mentor comments to thesis and student approach:**

Anastasia Katirtzi worked in my laboratory during the 4<sup>th</sup> year of study. She was hard-working, accurate and responsible. During the 5<sup>th</sup> year, she worked with literature to elaborate the theoretical part. She submitted her thesis early enough so that we could make necessary adjustments without hurry. Unfortunately, some biological results were not available in time and they will be added as Errata.

**Evaluation of diploma thesis: excellent, to defense: recommended**
