

Abstract

The thesis consists of two parts: practical and theoretical. The practical part contains the Czech translation of the introduction and the first three chapters of the Spanish parents' guide to autism *Un niño con autismo en la familia, Guía básica para familias que han recibido un diagnóstico de autismo para su hijo o hija*. The book published by The Institute on Community Integration (INICO) deals with difficulties of the inner acceptation of the diagnosis and provides basic information on autism spectrum disorder (ASD). The theoretical part includes the translation commentary where the applied translation procedures, translation problems encountered while translating and their solutions are discussed on the basis of the translation analysis of the original text.
