

REPORT OF BACHELOR THESIS

Leadership's name:

Mgr. Lenka Satrapová

Student's name:

Lene Moe Sognar

Title of diploma thesis name:

Case study of physiotherapy treatment of a patient with the diagnose Osteoarthritis and Total knee replacement

Goal of thesis:

The aim of this thesis is to discuss the rehabilitation of a patient after total knee replacement due to osteoarthritis. It is divided into two parts, one theoretical part and one practical part. The theoretical part has emphasized to describe the anatomical structure of the knee, kinesiology, biomechanics and development and disease. The practical part aims to describe the examination procedures, therapy implementations and conclusion for the patient in relation to the given diagnose.

1. Volume:

* pages of text	71
* literature	41
* tables, graphs, appendices	30 tables, 4 appendices

2. Seriousness of topics:

	above average	average	under average
* theoretical knowledges		x	
* input data and their processing		x	
* used methods		x	

3. Criteria of thesis classification

	excellent	very good	satisfactory	unsatisfactory
degree of aim of work fulfilment	x			
<i>aim of work was fulfilled</i>				
independence of student during process of thesis		x		
logical construction of work	x			
<i>work fulfilled the requirements for bachelor's thesis</i>				
work with literature and citations		x	x	
<i>citation norm in the list of literature is not proper (different style author to author)</i>				
adequacy of used methods		x		
design of work (text, graphs, tables)		x		
<i>big tables look a little bit cluttered, but on the other side are full of proper information; green writing in tables is difficult to read</i>				
stylistic level	x			

4. Usefulness of the thesis outcomes:

under average	average	above average
---------------	---------	---------------

5. Comments and questions to answer:

1) You work with your patient in the acute phase after surgery. How will you continue in therapy with your patient, according to her state in the end of your therapy? Will you recommend some physical or sport activities according to the age of your patient?
2) Please suggest for your patient some procedures from physical therapy. Describe the application and goal of the procedure.

6. Recommendation for defence:

yes	no
-----	----

7. Designed classificatory degree

very good

Date: 11.5.2014
