

**Title:**

The use of pedagogical-psychological diagnostics in the work of teacher.

**Annotation:**

Černá, M.: The use of pedagogical-psychological diagnostics in the work of teacher.

/Diploma thesis/ Prague 2013 – Charles University, Faculty of Education, pedagogy, 102p.

In the thesis the author looks for methods of pedagogical-psychological diagnostics. She describes the use of pedagogical-psychological diagnostics in the work of teacher. Furthermore the author explores the way in which teacher proceeds the diagnosis, which methods the teacher uses and with which educational problems he or she encounters most frequently. The author is also interested in the teacher's experience with Pedagogical and Psychological Counselling Centre.
