

Abstrakt v anglickém jazyce:

I decided to divide the Thesis into a general and a special part. I devoted the general part to a definition of the most important terms and differences helping to define the topic I chose for my Thesis. In the special part, I analyse special cases of the use of works, liability types of individual parties on the internet and, last but not least, the biggest recent lawsuits which appealed to me. My knowledge from writing the Thesis lead to the seventh point of the outline „Deliberation De lege ferenda / The procedure against free space providers in the Czech Republic“.
