Pharmaceutical care - Pharmaceutical services in Greece and the European surrounding

Formal comments: number of pages: 64, number of graphs: 0, number of figures: 0,
number of tables: 3, number of references: 25

Type of work: Bibliographic search

- a) Aim of the thesis is: Fulfilled
- b) Language and graphic level: Very good
- c) Processing of theory: Very good
- d) Methods description: Good
- e) Results description: Good
- f) Discussion and conclusions: Very good

Reviewer comments: From where were taken numbers in chapter 4.1? There are not citations of sources. Methodology of research is not satisfied. Who created the questionnaire for research? Presentation of results directly in questionnaire is very unusual (pp.48-50) and comments are very brief. There is no proper discussion of results in diploma thesis. There are a bit mixed chapters 6 Conclusion – proposals and 7. Summary.

Questions:

1. What are „heroic“ drugs?
2. Compare "Social pharmacy in education and in reality" situation in Greece with situation in the Czech republic.
3. What do you mean about cross border pharmaceutical care in community pharmacies?

Evaluation of diploma thesis: Very good, to defense: Recommended
