

ABSTRACT

Charles University in Prague

Faculty of Pharmacy in Hradec Králové

Department of Social and Clinical Pharmacy

Candidate: Vojtěch Vitásek

Supervisor: Mgr. Jan Babica

Title of diploma thesis: Archives of the Czech Pharmaceutical Museum XIII. Archival collection Pharmacy Development Centre II.

In my thesis I addressed the activity of the Pharmacy Development Center. In particular I dealt with the building up and internal equipment of the pharmacies. My goal was to create an inventory of the part of the archive of the Fond of Pharmacy Development Center which is related to the building up of the pharmacies and to summarize the norms and their amendments over the years on which the Pharmacy Development Center took part.

Norms in this thesis are presented according to how they were amended and what they concerned during the building up of the pharmacies.

I inventorized a part of the Fond archive according to the registry key. I categorized, moved and discarded the documents. I created an archiving tool - inventory to ease the work of further developers.
