

Abstract

Title:

Institutional structure of sport in the Czech republic

Objectives:

The main goal of this project is to evaluate current role of the Czech Sport Union and the Czech Olympic Committee and their position in the structure of czech sport environment. The second goal is, on the basis of research, to suggest a new concept of the institutional structure of sport in the Czech republic and at the same time considering the importance of scientific and educational center.

Methods:

In this project, there was used a qualitative method of research – in-depth interview, which was completed by semi-structured questionnaire. As well as a method of text analysis was applied. Case study served as a certain source of secondary data too.

Results:

Recommendations and proposals for improvement of situation of the czech sport environment represent the main output. Transcriptions of in-depth interviews placed in appendix are considered as a significant results as well. This thesis is going to be submitted to all of respondents with the aspiration to inform the whole sport environment about current situation in the czech sport area.

Key words:

Roles of state, competences of COC a CSU, cooperation of sport environment, sport organizational structure, scientific and educational institute.
