Abstract

This is my bachelor’s thesis. I try to look into the issue of home care for family members diagnosed with Alzheimer's disease. My target is to bring the risks and difficulty of this care.

I also want to support families that have decided to give their family members a personal, full and proper, care.

The theoretical part of the thesis is focused to the history, theoretical knowledge, diagnosis and symptoms of Alzheimer's disease. After that attention is directed to the demands, specifics and problems of home care for seniors diagnosed with Alzheimer's disease.

In the practical part of this thesis are presented case studies. In conclusion evaluates how to achieve the objectives of the research and the research question.
