

TITLE:

Origin and historical development of the First Constitutional Elementary School in Central Europe at the František Hamza Sanatorium in Luže

AUTHOR:

Mgr. Soňa Mikolášková

ABSTRACT

The aim of the thesis is based on archival sources and literature to capture the most complete picture of the historical development of constitutional fundamental schools, including the pedagogical approach and the ideas of its founder Prof. Francis Hamza MD, the curriculum, the teaching and the specifics of this school. This school was the First Constitutional Elementary School in Central Europe. It only later began to emerge at other schools, hospitals and other medical facilities. And today, the school performs particularly, education and the educational function, which has a significant positive impact on the healing process of the child, because her thoughts move away from illness, pain, fear and are helped to overcome the sadness of separation from the family.
