

## **Abstract:**

The thesis is focused on falconry lessons in primary and secondary schools in the Czech Republic. It introduces the theory of falconry: Past and Present, legislation, falconer and ethics, anatomy and physiology birds of prey, falconry equipment, protection of birds of prey and falconry contemporary significance. Suggests the possibilities that mediate falconry lessons in schools both within lessons and excursions. The thesis is the preparation and implementation of the above proposed teaching methods: Power Point presentations and worksheets aimed at training students in primary and secondary schools filled with falconry, falconer conversation and exemplary school excursion.

## **Key words:**

falconry, field trips, power point, birds of prey
