

The bachelor work is concerned with the placement of a child in institutional care. The theoretical part describes the concept of dilemma, division dilemmas, managing dilemmas, dilemma intervention-not intervention and the related decisions, measures child protection and the possibility of solving social workers, within the family and in the case, where a child is at risk. The practical part of the qualitative research in the form of semi-structured interview answers the main research question which is: What procedures apply social workers within the dilemma intervention-not intervention? To her answer contributed by respondents from the department of social and legal protection of children Brandýs nad Labem-Stará Boleslav.
