

## **The abstract**

The main aim of the thesis is preparation of the edition of an educational text by Simon Lomnický from Budejovice. My work is aimed on the adaptation and analyse of a moralizing text by Lomnický. I have analysed his book, *Instruction or The short education for young huntsman*, her evolution during three centuries, differences among editions from 16<sup>th</sup>, 18<sup>th</sup> and 19<sup>th</sup> century and her dependence on source book, *The sentences and educations of the great philosophes*. The reflection of Lomnický's life has been changing very fast and dramatically, I have tried to find out reasons of peremptory changes.
