

TITLE: Achievements of our athletes at the Paralympic Games

AUTHOR: Bc. Anna Brůžková

DEPARTMENT: Department of Physical Education

SUPERVISOR: PhDr. PaedDr. Ladislav Kašpar, Ph.D.

ABSTRACT:

The thesis is focused on the achievements of our athletes at the Paralympic Games.

The thesis is split into several sections, which are devoted to problems related to basic concepts, history of sports activities of disabled people and historical view of the Paralympic Games. I also focused on the description of the individual sports that are on the summer and winter Paralympic Games. One of the important sections is the classification for disability and classification for sports. In the section on the achievements of our athletes we find out which games are the most successful for the Czech Republic, which sport is the best for us, which disability and gender dominates in gaining medals and in the end, who is our most successful Paralympian.
