

**Abstract:** In the bachelor thesis I focus on the study of activities of KSČ in the district of Teplice-Šanov in period between years 1945 and 1948. The basis of my work comprise study of sources and literature. I concentrate my interest particularly on following thematic fields: organizational activity, personnel administration and acting in bodies of local selfgovernment (ONV Teplice-Šanov). Naturally I touch activities of other political parties with whom Communists clashed when they aimed to reach their goals.
