

The diploma thesis is focused on the situation of the captive orangutans and the theme of orangutans in the school-books for primary schools and high schools. The captive orangutans have different surroundings than wild orangutans. Unsuitable conditions can be the causation of orangutans unfitting behavior. So it is very important to make such suitable surroundings for captive orangutans that it can evolve the behavior, skills and acquirement of orangutans. The main aim of the diploma thesis, based on theoretical insight, was to inscribe the behavioral differences between wild and captive orangutans. The description of the captive orangutans in the Prague ZOO is getting evolve this theme. The school-books analysis, work sheet and the presentation about orangutans could be useful for teachers.
